

PROJECT NAME: Mill Creek Greenway Trail Project
PROJECT No: 2009-032-28
DATE: September 30, 2009
CLARIFICATION ISSUED BY:
Jim Row, Community Services Director
REPORT NO.: Three (3)

QUESTIONS:

1. The contract documents don't seem to be clear about what items are included in the installation of the two light poles at the two parking areas. Is the contractor responsible for installing the electrical trenching, conduit, wiring, as well as electrifying the fixtures?

CLARIFICATION:

1. No, the contractor is only responsible for the installation of the light poles, fixtures, and foundations, as indicated in the drawings. Item #28 of the Base Bid Schedule should only include the costs for these items.
